

PROVEN ROI

Enterprise Asset Management

Whether it's protecting your most important asset – your riders – or all your physical infrastructure, Trapeze's transit-focused Enterprise Asset Management (EAM) solution transforms your business by optimizing your asset, maintenance, and materials workflows and helping you stay on top of regulatory compliance. The ROI benefits of deploying Trapeze EAM are proven in transit.

Protect and Prolong Your Assets

Vehicle breakdowns are costly, for your agency, and your rider. EAM helps minimize them, saving you money and significantly increasing customer satisfaction.

2.4 MILLION Annual Savings

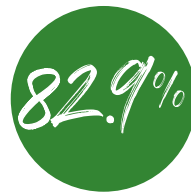

by Metro Transit St. Louis with predictive maintenance

Maximize Warranty Reimbursements

With the **EAM Warranty** module, the Massachusetts Bay Transportation Authority (MBTA) recovered nearly \$7 million in parts warranties since 2003. Last year alone, MBTA recovered over \$900,000 in reimbursement. Using EAM, the agency also found markets for parts containing precious metals, generating another \$500,000+.
